Traditional Lead Platforms Leave Your Team Flying Blind

Most lead providers send a name and a phone number — and that's it. Your sales team is left guessing: Is this buyer serious? Do they have financing? Are they comparing five other units?

This uncertainty wastes time, burns follow-up energy on cold prospects, and lets hot buyers slip through the cracks.

The result: dealerships over-invest in low-intent leads and under-invest in the buyers who are actually ready to buy. MatchRV was built to fix this.

No Intent Signal

You don't know if they're browsing or buying.

No Budget Context

Financing readiness is a complete mystery.

No Behavioral Data

No visibility into what they've viewed or compared.

No Closing Strategy

Your team starts from zero on every single call.

Flat Pricing

You pay the same price regardless of lead quality. **MatchRV**

Every MatchRV Lead Arrives with a Readiness Score

MatchRV scores every lead on a **0–100% Readiness Scale** before it reaches your inbox. This data-driven composite is built from four dimensions of buyer behavior, giving your team an instant ranking of each lead's likelihood to purchase.

Buying Intent

Timeline & urgency to purchase.

Budget & Financing

Readiness to fund the buy.

Engagement

Browsing & interaction depth on-site.

Profile Depth

Trade-in status, decision-maker confirmed, verified contact.

0-100% READINESS

The Buyer Roadmap Turns Every Lead into a Closing Strategy

The **Buyer Roadmap** is MatchRV's proprietary intelligence layer included with every single lead, regardless of tier. It is not a lead form summary — it is a structured snapshot of the buyer's journey, intent, and decision context, designed to help your sales team prioritize, personalize, and close.

Tier 1	Journey Snapshot — where they are in the process
Tier 2	Expanded Journey — timeline, budget, best contact window
Tier 3	Full Journey + Motivators — what's driving the decision
Tier 4	Complete + Closing Cues — objections, trade-in, decision-maker confirmed

No other RV lead platform provides a Buyer Roadmap. Most send a name and a number. MatchRV sends a closing strategy.

Even Our Entry Lead Outperforms the Competition's Premium Lead

Traditional RV lead platforms charge premium prices for leads that contain little more than a name and a phone number. MatchRV's Tier 1 lead already includes verified contact data, a specific vehicle of interest, source tracking, and the Buyer Roadmap.
