

Lead Tiers

Every MatchRV buyer is scored by readiness. Each lead arrives with a full buyer dossier: contact, the AI preference read, the exact units they viewed, and their conversation with the AI. The Buyer Roadmap and the conversation get deeper as the score rises. This is exactly what your sales team has in hand, tier by tier.

Prepared July 1, 2026

At a glance

Tier	Readiness	Price / lead	What deepens at this tier
Inquiry Lead	0 – 44%	\$19 / lead	Full dossier: contact, AI profile, units viewed, activity trail
Engaged Lead	45 – 64%	\$29 / lead	Contact window, plus the AI conversation begins
Qualified Lead	65 – 84%	\$39 / lead	Purchase timeline, Finance signal, completed AI Q and A
Ready-to-Buy Lead	85 – 98%	\$49 / lead	Close window, Closing cue, full AI conversation

The buyer dossier (contact, AI preference profile, proximity, search filters, activity trail, the exact units viewed, and the buyer's AI conversation) comes with every lead. Each tier is cumulative, so a higher tier includes everything below it.

How tiering works: MatchRV calculates a Readiness Score for every buyer from a 5-factor model (search behavior, financial readiness, inventory alignment, engagement depth, and contact intent). That score sets the lead tier, from Inquiry through Ready-to-Buy. The exact units viewed and the buyer's AI conversation are captured on every lead. Lead tier classification, the Readiness Score, and AI-generated sales openers are part of the AI Lead Agent dealer plan. Example leads shown are representative.

Inquiry Lead 0 – 44% readiness

\$19 / lead

A fresh, top-of-funnel buyer who is still researching. You get verified contact, the AI preference read, the exact units they browsed, and their early activity trail.

Match Report core Q and A, complete

MATCHRV AI

Class B adventure van, got it. What is driving the search, weekend trips or longer expeditions?

BUYER

Longer trips, off-grid. 4x4 is a must and I want lithium power.

MATCHRV AI

Understood. Any budget ceiling, and is a trade-in involved?

BUYER

Around \$190k. Trade-in pending. Looking to move in the next couple of months.

ON THE CALL

They have a 60 to 90 day timeline and financing in motion. Book a walkthrough and line up finance while intent is high.

Ready-to-Buy Lead 85 – 98% readiness

\$49 / lead

A buyer at the finish line, comparing final candidates. The full roadmap, the exact units in the running, and the complete AI conversation, including the cue to close.

BUYER AND AI CONVERSATION

Full Match Report conversation

MATCHRV AI

What will you mainly use the coach for, and how many travel with you?

BUYER

Full-time-ish travel, usually 4 of us. I want real off-grid range, not just a weekend generator.

MATCHRV AI

Then solar and 4-season insulation matter. What is your comfortable budget, and are you financing?

BUYER

Up to about \$260k. Pre-approval is already started. I want to decide in the next week or two.

ON THE CALL Call today. They are comparing final candidates on a 5 to 10 day window, financing is initiated, and a trade-in is in play. Prep the unit and close.
